Specpure® Multi-Element Standards

Alfa Aesar offers a wide selection of Multi-Element Calibration Standards in stock and ready for prompt shipment. Each multi-element solution is shipped with expiration date stickers and a Certificate of Analysis which states the actual concentrations of each element and NIST traceability. These multi-element solutions are designed to contain groups of elements which are matrix matched and commonly analyzed together.

Specpure® Semiquantitative Analysis Standards

The Semiquantitative Analysis Standard solutions contain almost all elements which can be determined by ICP and DCP. They are very useful for doing semi-quantitative analysis scans.
